Profile Summary

Motivated Computer Science Engineering student with a CGPA of 9.53 and practical experience in full-stack web development using Java Full Stack and MERN technologies through internships and academic projects. Currently exploring Artificial Intelligence and Machine Learning through hands-on projects, Forage GenAI, Kaggle, and industry learning programs. Eager to apply software development and AI/ML skills to develop intelligent, real-world applications.

Education

Kakatiya Institute of Technology and Science (KITSW)

B.Tech in Computer Science and Engineering - CGPA: 9.53 / 10.0

Warangal, India
Expected May 2027

Alphores Junior College

Intermediate (MPC) - CGPA: 9.82 / 10.0

Warangal, India
2023

Gautami High School

Secondary School Certificate (SSC) - CGPA: 10.0 / 10.0

Warangal, India
2021

Experience

ServiceNow Virtual Intern – ServiceNow University

May 2025 – June 2025

Remote

- Completed ServiceNow Administrator training, gaining hands-on experience with ITSM workflows and platform configuration
- Created, categorized, and resolved incident tickets in lab environments to understand enterprise ticketing systems
- Built basic automation flows and monitored service dashboards to track ticket resolution status

Web Development Intern – KITS Warangal

June 2025 – Aug 2025

On-site

- Contributed to development of three full-stack web applications for college departments using the MERN (MongoDB, Express, React, Node.js) stack.
- Engineered reusable UI components with React and integrated RESTful APIs to connect with backend services.
- Collaborated in an Agile team using Git for version control, participating in daily stand-ups, sprints, and code reviews.

Projects

Multi-Role Learning Management System (LMS) | React, Spring Boot, MySQL

[Github](#)

- Developed a multi-role frontend in React with distinct UI views for Students, Teachers, and Administrators.
- Implemented functionalities including course management, assignment submission, attendance tracking, and user management using reusable React components.
- Integrated frontend modules with backend services to support a centralized academic management system.

Institute Document Retrieval System | JavaScript, Express.js, MongoDB

- Designed a web portal enabling students to digitally request and track official institute documents, reducing administrative overhead.
- Built a document request portal using Express.js, MongoDB, and JavaScript.
- Developed REST APIs for document request tracking and status management.

Technical Skills

Languages: Java, Python

Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS

Backend: Spring Boot, Node.js, Express.js, REST APIs

Tools & Platforms: Git, GitHub, Postman, ServiceNow (Basics)

Database: MySQL, MongoDB

Concepts: Data Structures, Algorithms, OOP, DBMS

AI/ML: Probability & Statistics, Linear Algebra, Machine Learning Fundamentals

Achievements and Certifications

- Secured State Rank 3111 in EAMCET 2023 and 91.01 Percentile in JEE Main 2023
- Participated in an online hackathon, gaining experience building under time constraints
- Solved 100+ DSA problems on LeetCode.
- ServiceNow Virtual Internship Program — ServiceNow University & SmartBridge (AICTE Approved) | Oct 2025
- Tata Forage GenAI Virtual Experience Program | June 2026
- Kaggle Certifications: Python, Pandas, Data Visualization, Intro to ML
